

Sander Bell

Product Manager · AI, Mobile, Consumer & B2B

Email: thesanderbell@gmail.com · Portfolio: <https://sanderbell.dev> · LinkedIn: <https://linkedin.com/in/sanderbell> · GitHub: <https://github.com/sanderbell>

SUMMARY

Product manager with 8 years in product roles across edtech, enterprise B2B, mobile, and AI-native products. Ships hands-on: architected multi-agent AI systems in production and wrote code inside a 2M+ user app. Career foundation in media gives risk judgment most PMs don't have. Strongest in roadmap ownership in ambiguous product work, cross-functional product and engineering execution, and customer-facing technical coordination.

CORE SKILLS

Behavioral Psychology; Psychology-Backed UX; Retention; Strategy & prioritization: roadmaps, RICE, MoSCoW; Discovery & definition: JTBD, PRDs, user stories, acceptance criteria; Analytics: North Star metrics, GA4, A/B testing; Stakeholder & cross-functional leadership; Tools: Jira, Notion, Miro, Postman

PROFESSIONAL EXPERIENCE

Product Architect · 100k31d · Dec 2024 - Present

- Scope: Architect AI and micro-SaaS products end to end; own product architecture, AI systems, and distribution across a portfolio of shipped consumer and B2B apps.
- Architected Comms to catch legal, cultural, factual, timing, and reputational risk before business messages ship.
- Grew Esse, an AI summarizer app, to 10,000+ organic users.
- Lifted Esse onboarding to 7% freemium-to-paid conversion, versus roughly 2% for comparable freemium products.

Product Engineer · Ling · Dec 2023 - Nov 2025

- Scope: Deliberate move to build engineering fluency for technical product work: shipped production features inside a 2M+ user consumer mobile app spanning 60+ languages.
- Built product data layers that powered user-facing surfaces and analytics for product and growth decisions.
- Delivered features end to end through implementation, review, release, and post-release monitoring.

Product Manager · Critical Mention / Onclusive · Jan 2021 - Nov 2023

- Scope: Owned the NLP sentiment module for an enterprise B2B media-intelligence platform competing with Meltwater and Cision.
- Retained three high-value enterprise accounts by securing a migration extension, tailored guides, and Customer Success support.
- Shipped the NLP sentiment module on roadmap, making PR-specific risk detection an enterprise sales differentiator.
- Reduced legacy-sunset churn risk by sequencing deprecations around usage data, segments, and migration timing.

Content Product Lead · UCHI · Feb 2018 - Jan 2021

- Scope: Led a cross-functional team of 10+ at the largest school-tech company in Eastern Europe, using A/B tests, retention/conversion metrics, and content architecture through the 2020 remote-learning surge.
- Increased Time-Spent-on-Platform by 15% after identifying 65% lesson drop-off after the second screen.
- Increased lesson-start conversion by 30% in a 50,000-user push test with an encouraging message variant.

Earlier Experience · Media, Communications, and Editorial Leadership · 2008 - 2021

- Scope: 13 years across broadcast journalism, online media, PR, and civic communications; built independent outlets and served as Editor-in-Chief.
 - Turned editorial risk judgment into product instincts for claim verification, legal-risk awareness, and narrative timing.
 - Protected civic campaigns under hostile coverage by owning narrative strategy, response, and public message architecture.
 - Owned publish/don't-publish calls and source/claim verification under deadline pressure.
-

EDUCATION

MSc in Psychology · L. S. Vygotsky Institute (2012); Google Project Management Certificate (2021); Google Analytics 4 Certification (2023)
